

Practical Activity 5 [25 marks]

The owner of a stationery store based in Coffee Bay, Monica needs a desktop application that will allow her to perform some of her daily operations in the store. Create an application that will allow her to store and manipulate data of her store. The application must allow her to view available products, select certain attributes (columns) of her products, sort available products, insert new products, delete product and lastly, the application must also allow her to search and filter her data. Following is a table of Products in her database:

ProductID	ProductName	Category	ProductPrice
1112	Croxley A5 notebook	Books	R70
4412	Artline Ballpoint pen	Pens	R20
4413	Bic Red Pen	Pens	R21
3312	HB carbon pencil	Pencils	R15
1113	1 quire counter book	Books	R25
1123	Double ledger book	Books	R10
1114	2 quire counter book	Books	R35
2212	Sharp scientific	Calculators	R299
1115	Atlas	Books	R150
4414	Pilot G2 pen	Pens	R50
3313	Croxley Pencil	Pencils	R12
2213	Casio FX-82ZA+	Calculators	R400
3314	Steadtler traditional 3H pencil	Pencils	R32
2214	Basic calculator	Calculators	R99

- The menu Items of the application are as ff:

File View Edit

-Exit -Stationery -Edit Products

- View products interface has the following buttons:

View All: Shows all the data from the table in DataGridView. Also used to refresh the DataGridView.

Sort by Price: Sorts products by price in ascending order.

View Sale: Shows all the products that cost less than R25.

- Search and filter the GridVew using ComboBox and the textbox.
- The Edit products interface contains a tab control with two tabs, add new product and delete product tabs.

Following pictures show the proposed design interfaces for the application.

STUDY UNIT 2

Database File Handling

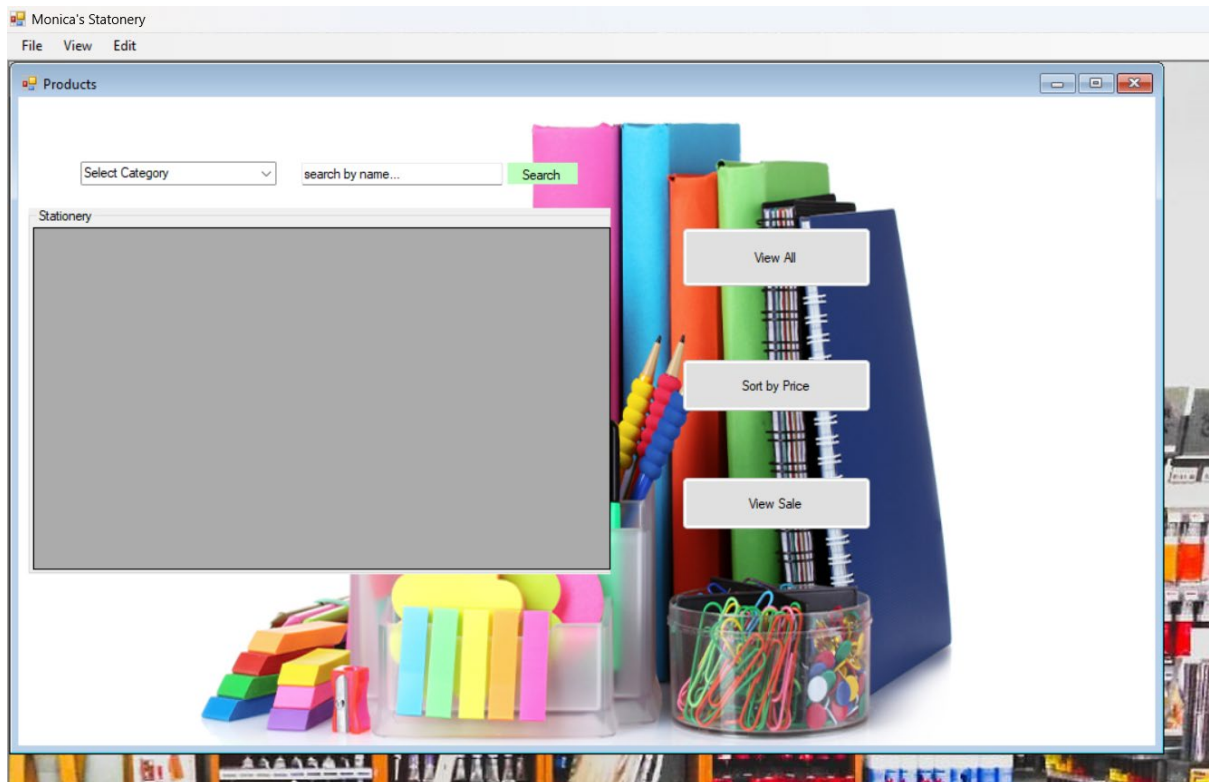

Figure 1: View Products interface

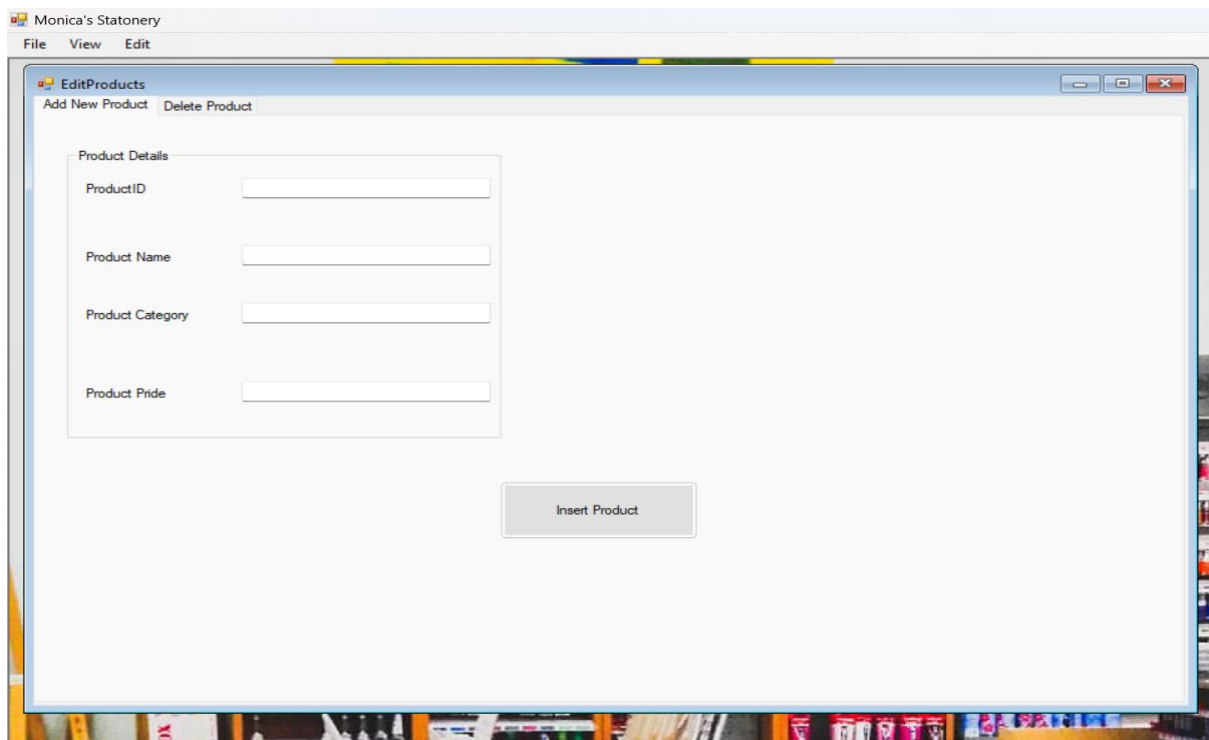

Figure 2: Edit products interface (Add new product Tab)

STUDY UNIT 2

Database File Handling

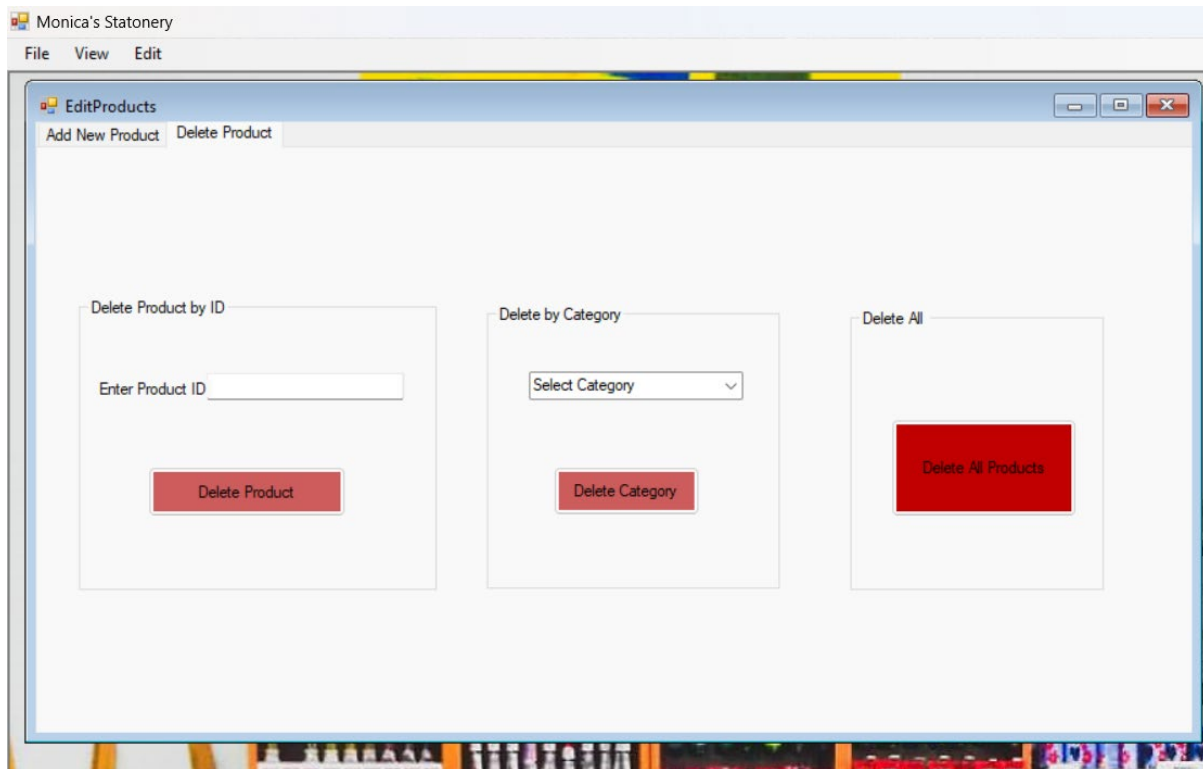

Figure 3: Delete Products tab

Your application must have a nice look and feel, the user should be able to navigate through the app smooth and easy.
