

## Activity 4: Calendar and GridView Control [20]

Create a dynamic website for SI consultation bookings for first year students that are currently pursuing their B.Sc IT qualification. The students' details must appear on the gridview after the book button has been clicked and when the student clicks the calendar, the next consultation date and time must be displayed next to the calendar. Use the following as an example. Please note that you need to create a dynamic proper website therefore, you need to be creative and style your website. You can use different colours/images and other controls to produce a nice look and feel.

### SI Consultation Booking

Name:

Surname:

Stud\_ID

Select module

Select preferred time slot:

☒ Mon 10am ☐ Tues 9am ☐ Wed 10am ☐ Thur 11am
