

Practical Activity 3: Radio Buttons and PostBack [10]

Create a dynamic website for SI consultation bookings for first year students that are currently pursuing their B.Sc IT qualification. Use the following as an example:

SI Consulation Booking

Name: Surname:

Stud_ID: Select module:

Select prefered time Slot:

☐ 9h00-10h00 ☐ 11h00-12h00 ☐ 13h00-14h00 ☐ 15h00-16h00

Booking Confirmation

This exercise focusses on postback. Think of alternative ways to store the time when one of the four-time radio buttons is clicked, so that you can display (on a listbox) the selected time when submit is clicked. The confirmation should contain the details of the booking student and the time slot selected.
